

# Gresso presents the exclusive collection of Mp3 players.

16 February, 2007

Gresso Ltd., manufacturer of luxury mobile phones executed from African Blackwood and Gold, has announced the collection of exclusive Mp3 players, called *The Symphonia*.

The idea behind Gresso Symphonia was to create a Mp3 player that is dedicated to one prime purpose: to provide an alternative for those customers, who demand the ultimate craftsmanship and exceptional design.

As well as a classical symphony consists of four parts, Gresso Symphonia Collection will comprise four models: Gresso Symphonia Blackwood&White Gold, Gresso Symphonia Blackwood&Pink Gold, Gresso Symphonia White Gold, Gresso Symphonia Pink Gold.

Models Blackwood&White Gold and Blackwood&Pink Gold are made of excellent and rare material - African Blackwood, which age is more than 200 years. The front panel of Symphonia Blackwood&White Gold is made of 18 Carat White Gold. And the front panel of Symphonia Blackwood&Pink Gold is executed from 18 Carat Pink Gold.

The distinctive sign of Symphonia Gold models is the material. The both models are entirely executed from 18 Carat White or Pink Gold.

All models of Gresso Symphonia Collection have the tetrahedral form of the case, which sizes are 39\*39\*10,5 mm. This allows to use the device not only as a player with modern functionalities, but also as a jewelry.

The innovative flat keyboard of the player has special scratch-resistant covering, that is conceded to diamond in durability, and patented by Gresso company. Figures and letters of the keyboard are cut out by the ultraprecise laser.

Gresso Mp3 player features 1 Gb of internal flash memory and supports Mp3, WMA, ASF and OGG music formats. Built-in FM Tuner.

Symphonia will be launched in the second quarter 2007. The price for Gresso Mp3 players, depending on models, will be from 3000 to 5000€.
