

GRESSO

## «Lady Gold» and «Ultramarine» Triumph is going on...

Following the stunning success of Lady Diamond Collection Gresso Company is pleased to introduce two new lines – Lady Gold and Ultramarine Gold.

### Lady Gold

Not just a collection, Lady Gold is an ode to femininity, to elegance and to beauty. It has been created to astonish and win the hearts at first sight.

The peculiarity of the model is a magnificent case of brilliant red color. This deep, intensive colour is the result of complicated technological processes. The case is coated with several layers of high-tech ceramic of Magenta Diamond color. Special sparkles in the coating add a marvellous shine and radiance to the case. Limited edition of 15 pieces.

### Ultramarine Gold

Contrary to Lady Gold Collection, there is a special line Ultramarine Gold fashioned in a sparkling ultramarine case. While red colour stands for passion and affection, blue represents a blending of strength and serenity, it is the color of the sky and the ocean. Ultramarine Gold is an impressive and fantastic model. Limited edition of 15 pieces.

### Innovations

The principal know-how of Lady Gold and Ultramarine Gold Collections is a transparent sapphire back similar to that of famous Swiss Skeleton watches. It will allow the customers for the first time to admire the inner mechanism of the device.

The case of the phone is executed of titanium covered with high-tech ceramic. The functional keys are executed of 18K gold with the application of ultra-precision turning technology. This technology ensures the superexcellent precision and impeccable shape of each detail. The front panel is decorated with a gold triangle - a special feature of all Gresso phones.

Roman numerals on the keyboard are an innovation by Gresso. The battery cover with the magnetic lock is executed of stainless steel and decorated with genuine leather. The name of the collection and individual number of the phone are laser-engraved on the metal plate under the battery cover.

The gadget is provided with Windows Mobile 6 Standard, 2 Gb memory, SMS/MMS/e-mail, Internet Explorer, Outlook, WAP 2.0, GPRS, Bluetooth, mini-USB, PC Synchronization, voice recorder, MP3-player, 2MP camera.

The collection release date is 12 May, 2009. Price – 4800 EURO.
