

GRESSO

## SKELETON GOLD – A WORTHY SUCCESSOR OF AVANTGARDE COLLECTION

### LIMITED EDITION OF 50 PIECES

After a great success met with the Skeleton Collection, introduced in December 2008, Gresso is proud to present a gold version of the collection, now limited of 50 pieces. The signature feature of Skeleton Gold is the **open back** executed **of sapphire crystal**, which will allow the customers to admire the inner mechanism of the device. This peculiarity is inspired by complicated swiss skeleton watches.

Each of **23 functional keys** of Skeleton Gold is executed of **18K gold** with the application of ultra-precision turning technology. This technology ensures the superexcellent precision and impecable shape of each detail. There is a gold triangle on the front panel of the case. The screen of the phone is enframed by hand-polished 42K sapphire glass.

All the special features of Skeleton collection remained in the new model. The case is executed of **special titanium alloy** with scratch-proof **high-tech ceramic** coverage. The sapphire glass on the back panel is decorated with the Gresso logo covered with 10 micron gold. Roman numerals on the keyboard are an innovative by Gresso.

Another invention patented by the company is the magnetic lock of the battery cover. The cover is executed of stainless steel and decorated with genuine leather. The name of the collection and **individual serial number of the phone** are laser-engraved on the metal plate under the battery cover.

The gadget is provided with Windows Mobile 6 Standard, 2 Gb memory, SMS/MMS/e-mail, Internet explorer, Outlook, WAP 2.0, GPRS, Bluetooth, mini-USB, PC Synchronization, voice recorder, MP3-player, 2MP camera.

**The collection release date is 19 February, 2009. Price 4400 USD.**
